9 31-32 RACCOONADA

Combination of Technology and Healthy Food! In today's fast-paced world, there is a huge demand for natural, healthy food. While there are too many unhealthy options and fast foods, Raccoonada is proposing to grab a nutritious package of Raccoonada dates.

ABOUT US

Raccoonada Nuts and Dried fruits Trading inc. is a Canadian Import-export Company (Ontario corporation no. 1578211-2) working in Agri-Food industries with our corporate head office in Ottawa, Ontario, Canada. Our market research has shown that there is a growing demand for healthy food options, especially in busy urban areas. By combining technology and healthy food, Raccoonad is poised to fill this gap in the market. We have analyzed the market size and competition and have developed a comprehensive business plan to ensure Raccoonada success.

01

our main product is Date, a heavenly energetic fruit which is in particularly grown in the southeast area in Iran. All types of dates are harvested, washed, sanitized and packed within a complete healthy process.

These delicious super fruits are the perfect addition to everyday meals or to grab as an on the go snack or add to protein bars as a complementary for athletes.

Ensuring proper packaging is another issue that has always been at the core of our business. We truly believe that proper food packaging creates lasting impression on the shelf and in the mind of customers.

It helps hygienic transportation and prolongs the shelf life and reduce the risk of an item spoiling. For that reason, the experts at Raccoonada company have crafted a quality, to ensure its protection from any possible damage both during transiting and sitting in the store shelves.

The packages come in different sizes and shapes compatible to the customers' needs and desires.

SAYER DATES

Sayer dates are one of the most prominent dates in the world. They contain 75% sugar thus they are described as the sweetest dates in the world. Sayer date have less than 16% moisture so they are semidried and durable and easy to keep and do not show any contamination after two years. Sayer dates are grown exclusively in Khouzestan province in Iran and they are locally known as “Stamaran dates”.

O2

These dates are soft, large and dried with light brown color. Date's pit in this kind of date has very little adhesion to its flesh and is easily separated.

Due to its softness and moisture, it can be used in confectionary and culinary industries such as pastry, desserts, icecream, biscuits, vinegar,...

In every 100 grams of Sayer dates, consumers will find 78 grams carbohydrate, 1 gram protein, 50 mg phosphorous, and 60 mg calcium.

02 SAYER DATES

These date fruits also boast several other essential nutrients, including vitamin A and K. Thus, eating Sayer dates throughout the year play a key role in increasing skin and eyes' health.

RACCOONADA

Moreover they are packed with fibre and antioxidants. Sayer dates also contains more carbohydrates (approximately 78 g in 100 g), making them a satisfactory snack. our Sayer dates come with a perfectly sealed pouch box packaging in one Kilogram.

DICED SAYER DATES

Diced Dates are Sayer dates that, after washing and pitting, are cut into pieces and placed inside this package.

Why? So that when you drink tea or coffee, you can have a harmless sweet that is mostly fructose and is easily absorbed by your body's cells. Or even if you get hungry and are looking for a healthy and nutritious snack, try Diced Dates.

Our dates are diced for your convenience, ready to be thrown into your favourite sweet dish. You can add them to your cereal, salad... Dates are great for post-viral chronic fatigue syndrome sufferers as well as excellent for those who suffer with anemia.

All dates have a reasonable amount of fiber and are a rich source of potassium. The most important use of this type of date can be defined as its use instead of sugar and any other artificial sweetener. Even those who have diabetes and blood sugar can use date chips.

03

This type of date can be used in combination with other foods such as yogurt and to prepare cakes, sweets, cookies, various desserts and smoothies. Date chips can be included as one of the useful and nutritious options in the combination of nuts. With this method, children can also benefit from the beneficial properties of dried dates. All the good properties that exist in dates are also defined as the benefits of dried dates.

03

DICED
SAVER
DATES

The iron, antioxidants, and vitamins found in date chips reduce hair loss and increase its thickness. Consuming date chips and including them in your daily diet plays a good role in hydrating, strengthening, and refreshing the skin. To prevent these date pieces from sticking together in the packaging, dextrose powder is also used. Our Diced Dates are flavoured with Coffee. The packaging is 550 gram in a fully sealed Plastic jar.
